Game at Nashville Friday Night Is Hope's Hardest

Bright Still Out; Ramsey Doubtful Starter for Hope

Special Train Leaves Hope 5:45 Friday—Roundtrip Fare 52 Cents

CLOSE TO STADIUM

Train Will Stop Only Two Blocks From the Nashville Field

By LEONARD ELLIS

"My boys realize that they will be up against the toughest football team they have met this season when they go to Nashville Friday night. I believe they are prepared. I believe they will win."

That was the way Coach Foy Hammons put it Thursday on the eve of the all-important battle with Nashville High School Friday night.

"The team as a whole is in a good frame of mind. They are looking for the hardest game they have had this year," Hammons declared.

"We're not going up there with the expectation of running over them—and I don't think that Nashville has the idea they're going to run over us. It will be a good game, and a hard-fought game," the Bobcat coach said.

Two Bobcats Out

The team, with the exception of Bright and Ramsey, is in good physical shape. It remained doubtful whether Ramsey would be a starter. There is little possibility of Bright getting into the game.

Hammons said that his probable starting backfield would be Spears at quarter, Ponder and W. Parsons at halfback positions and McDaniel at fullback. Galloway will probably start at an end position in place of Ramsey.

Football tickets are on sale at Hope Confectionery. They may be purchased at 50 cents for adults and 25 cents for students. A faculty member of Hope High School will be at the gate at Nashville to identify students.

Round-trip passenger tickets are on sale at the Missouri Pacific depot for 52 cents. Hammons urged football fans to purchase tickets now in an effort to avoid a rush Friday.

Special Leaves at 5:15
The Missouri Pacific special train carrying the football team and fans will leave Hope at 5:45 p. m. and arrive at Nashville an hour later. The train will be stopped two blocks from the field, and will remain there until 10:30 Friday night.

The kick-off has been set for 8 p. m. Coach Hammons said that the team would not practice Thursday afternoon because of weather conditions. A black-board session will be held.

The team and football coaches were to be guests Thursday night at a banquet at New Capital hotel, sponsored by the Young Business Men's association of Hope. The banquet begins at 7:30 o'clock.

Mother in Plea for Doomed Son

Mrs. Luther House Goes to Governor, Eve of Friday Execution

LITTLE ROCK.—(AP)—Mrs. Luther House arranged a conference with Governor Putrell Thursday afternoon to seek clemency for her son, Roy, 21, who is sentenced to die at Tucker Farm Friday for the slaying of aged Tom Menser near Hot Springs.

Rumor British to Buy U.S. Airplanes

Order for 1,000-Horsepower Fighters May Come to America

LONDON, Eng.—(AP)—The Air Ministry refused Thursday to confirm or deny persistent rumors that the British government is about to place American orders for high speed bombers, 1,000-horsepower fighting planes.

One-child families increased 25 per cent in number during 1931.

A THOUGHT

Like many other virtues, hospitality is practiced, in its perfection, by the poor. If the rich did their share, how the woes of this world would be lightened.—Mrs. C. M. Kirkland.

Here Is Comparative Data on the Hope and Nashville Teams

Their Season Records:

BOBCATS	SCRAPPERS
Hope 67; Ashdown 6.	Nashville 54; Beebe 7.
Hope 0; Pine Bluff 0.	Nashville 46; Dierks 0.
Hope 7; Smackover 0.	Nashville 7; Camden 6.
Hope 39; Warren 7.	Nashville 13; Smackover 0.
Hope 34; Beebe 6.	Nashville 25; DeQueen 0.
Hope 20; El Dorado 14.	

Probable Starting Lineups 8 p. m. Friday at Nashville:

BOBCATS	Weight	P. os.	Weight	SCRAPPERS
Galloway	160	L. E.	148	Rosson
Moore	180	L. T.	150	Reece

Here and There

Editorial By Alex. H. Washburn

Football enthusiasm is at an all-time peak in Hope. The same is true of Nashville—where southwest Arkansas' two undefeated teams will battle it out Friday night for what may well become the state championship. It would be regrettable if home-tome feeling is allowed to get out of polite bounds.

Football is supposed to be one of those mutual ties that help hold the state community together. Wholesome sport should make towns better neighbors.

But we don't need to remind any American that this isn't always the case.

As a matter of fact, it frequently happens that football, instead of making good neighbors out of adjacent cities, makes them bitter enemies—some times going as far as complete cancellation of athletic relations.

Hope has the best football team it could produce this year, we believe. It hasn't been defeated. But the same is true of Nashville—and so, both cities approach a painful point in their schedule this Friday night.

Let's meet like neighbors. (All the same, gentlemen, we don't mean to lose!)

Stepfather Held for Boy's Death

Pocahontas Planter Hurlied Out of Town as Feeling Rises

POCAHONTAS, Ark.—(AP)—Sheriff John T. Thompson announced Thursday the arrest of a man he described as John R. Kizer, 64, planter and stock dealer, in connection with an investigation into the death of his 15-year-old stepson, Bonner Arnold Kizer.

Sheriff Thompson said the youth died Wednesday afternoon after a two-day illness.

He reported that the coroner's jury had sent the body to Little Rock for a chemical analysis. The sheriff said he had removed Kizer to an unannounced jail because "feeling is pretty high here."

Tax Control Given to People—F. R. D.

Ringling Speech at Worcester, Mass.—\$175,000 See Him at Boston

HARTFORD, Conn.—(AP)—In a bid for Connecticut's eight electoral votes, President Roosevelt declared Thursday that Connecticut was a happier state than it was four years ago, and he pledged the federal government to do its share toward flood control in New England.

"I am glad prosperity is back with us again, and believe me it is going to stay that way," he said.

A big cheer went up with this statement.

In Massachusetts
WORCESTER, Mass.—(AP)—President Roosevelt Wednesday night coupled an answer to what he called "talk about high taxes under this administration," with an assertion that the nation, as in 1776, must choose this year "between democracy in taxation and special privilege in taxation."

Speaking to a crowd packed into the auditorium here in the major address of his swing through New England, the president asked:

"Are you willing to turn the control of the nation's taxes back to special privilege? I know the American answer to that question. Your pay envelope may be filled with suggestions of fear and your dividend letter may be filled with propaganda.

"But the American people will neither be bluffed nor bludgeoned. The seeds of fear cannot bear fruit in the polling booth."

The president contended that the New Deal had "improved and Americanized taxes," operating on the prin-

Virginia Admires the King's Taste in Choice of Lady

Warrenton, Scene of Mrs. Simpson's Divorce, Remembers Her

HAD 30 PROPOSALS

She Was 31 Years Old Then, Which Makes Her 40 Today

By SIGRID ARNE
Associated Press Writer
(Third of a Series)

WARRENTON, Va.—(AP)—There are understanding nods on all sides here in this little resort of the blue-bloods as the world babbles about the public appearances of the King of England with the Baltimore-born Mrs. Ernest Simpson.

Warrenton once worshipped at the shrine of Wallis Warfield Simpson. She was then Wallis Warfield Spencer, who had come to live here in 1926 and 1927 to get a divorce from her first husband, Lt. E. Winfield Spencer.

She had scarcely registered for a small suite at the old, red-brick Warren-Green hotel when word went out that the town was richer by one very fetching lady. Dinner and dance invitations flowed to the hotel. After all, the stranger was a Montague, of Virginia, on her mother's side, and a Warfield, of Maryland, on her father's side.

And ancestral lines mean everything here where the horse loving gentry of the South has collected to hunt fox generations.

They All Liked Her

Mrs. Simpson seems to have lived up to her promise. She was here two years and even the gray-haired rocking-chair brigade, which can be relied upon to get out hammer and tongs still gives Mrs. Simpson its royal approval with "Wallis was such a dear girl."

From the bootblack at the hotel, to the dowagers of Virginia estates, the first reaction to Mrs. Simpson's name is always, "She was so charming and witty—she had personality."

But try to make them concrete. They can't put her charm into words. She had an indefinable way of warming the heart and bringing a laugh. She was witty, but she didn't tell the current funny story. She was charming, but she wasn't a sugary flatterer. She had more brains than she could wish. But one cocktail was her limit, and she liked to get home at a discreet hour. She was the belle of the town.

She didn't dress elaborately. She wore tailored clothes. Her formal dresses were simple things, and she avoided flowers and jewelry. She had a medium figure, a small foot and a bright smile. She had the typical low voice of the well-bred southerner. She seemed very much alive.

Banker Paid Court
Her most faithful escort of those two years was Hugh A. Spillman, a handsome, blond, curly-haired banker, who had known her in childhood when they both attended private schools in Baltimore. He is still a bachelor who keeps a desk drawer where he keeps all the pictures that are being published of her.

He grins engagingly, and like the gallant southerner says: "I'll say this for the king. He's got the best taste in the world."

"She must have had 30 different proposals while she was here. I know I proposed to her regularly once a day."

Visited Simpson
But Wallis Warfield had begun to talk of Ernest Spencer. She went to New York several times during her stay at Warrenton to see him, her friends say. They begged her to bring

County Official Is Short \$17,168

State Audit Shows This Indebtedness by Washington Collector

LITTLE ROCK.—(AP)—State Comptroller Roy W. Spence released an audit Thursday showing that J. C. Wilson, former Washington county collector, owed \$17,168.33 to various county and state funds.

Spence said the audit had been under way since last February.

Hoppers Know When
INDEPENDENCE, Mo.—(AP)—Grasshoppers may eat anything from grass to saddle leather when pressed for food but they avoid sorghum cane fields during the long dry summer until after heavy rains.

A county extension agent explained the cane contains prussic acid during drought periods in quantity sufficient to kill cows grazing on it. Rain dispels the acid.

"The grasshoppers moved in immediately following the rain," the agent said. "To me, that is conclusive proof of their intelligence."

Turned Brown By Brown Turner

MEMPHIS, Tenn.—(Special)—Papers everywhere are still wrought up over Mrs. Simpson and her king. About the latest thing she's done to cause writers to get the jitters is she's moved to within walking distance of the palace which everybody thought was pretty good old car. The king lets on like he's going to do as he pleases even if they church him. Already has a run-in with his preacher, but that sort of thing is not worrying the farmers and business men in this neighborhood who believe that if President Roosevelt really is taking orders from Russia he ought to land a few good ones for cotton and tobacco. Preacher Smith says he's going to take over the government, but he's sort of like a bullfrog—makes a lot of racket but never hurts anything.

Patmos Wins 1st in Pantry Contest Achievement Day

Green Laseter Second, Allen Third, and Rocky Mound Fourth

GET DISTRICT TRY

Patmos Club, and Mrs. Charles Locke, to Represent County

Awards on Hempstead county Achievement Day, which was held at the exhibit hall in Fair Park, Hope, last Saturday, were announced Thursday as follows:

The Winners

1. Individual Canning Contest sponsored by the Ball Brothers Canning Company. Each contestant exhibited 6 quarts of canned products consisting of 2 quarts of fruits, different varieties, 2 quarts of meats, different varieties, 2 quarts of vegetables, different varieties and a report of all canning done by the exhibitor. The score for judging was:

Quality of exhibit 60
Report of canning supply (based on canning budget) 40

Winners:

First—Mrs. Charles Locke, Ozan St. Paul Home Demonstration club.

Second—Mrs. Lee Garland, Allen Home Demonstration club.

Third—Mrs. V. M. England, Shover Springs Home Demonstration club.

Fourth—Mrs. W. D. Jones, Ozan St. Paul Home Demonstration club.

Fifth—Mrs. G. B. Stuart, Ozan St. Paul Home Demonstration club.

Sixth—Mrs. Eugene Goodlett, Ozan St. Paul Home Demonstration club.

All will receive a cash prize.

Mrs. Locke will represent Hempstead county in the Southwest Arkansas District canning contest which will be held at the Branch Truck and Fruit Experiment Station on Saturday, November 14. Mrs. Locke has 15 kinds of vegetables growing in her fall garden.

Patmos, Pantry Winner

The Pantry Stores contest which consisted of food for a family of five for one week was entered in by eleven clubs. The Rural Resettlement clients had the exhibit but did not compete for a place. Winners were:

First—Patmos H. D. C. This club had as its educational feature a Christmas dinner demonstrating the use of foods found on the pantry shelf.

Second—Green Laseter H. D. C. Attractive Christmas gifts from the pantry shelf were the special feature.

Third—Allen H. D. C. A dainty table of refreshments for a Halloween party which were prepared from identical food found on the pantry shelf was an added attraction to their display.

Fourth—Rocky Mound H. D. C. This club had a very attractive Thanksgiving dinner on display.

Fifth—Columbus H. D. C. A well balanced farm dinner was the educational feature.

Sixth—Hinton H. D. C. and Melrose H. D. C.

Seventh—Shover H. D. C. with a display of a poor school lunch and a well balanced and well prepared school lunch.

Eighth—Centerville H. D. C. with a very attractive breakfast prepared from the food found on the pantry shelf.

In District Contest
Patmos club will compete in the District contest for the district prize offered by the Dixie Canning company of Little Rock.

Allen H. D. C. scored high in the fresh vegetable show displaying forty-four varieties.

The Ozan, St. Paul club took first place on the quality of canned products.

Prizes to clubs on canned products: Canned tomatoes: 1. Ozan-St. Paul H. D. C. 2. Green Laseter H. D. C. 3. Patmos H. D. C.

Many Contribute to Patmos Honors

Here Are Officers and Donors of Winning Demonstration Club

The personnel of the Patmos Home Demonstration club, which came away from last Saturday's County Achievement Day with top honors, is as follows:

Patmos Club Officers: President Mrs. A. N. Rider; vice-president, Mrs. B. W. Burns; secretary, Mrs. B. J. Drake; reporter, Mrs. O. T. Rider.

Patmos Booth: Contributors to Pantry shelf—Mrs. O. B. Rider, 10 quarts; Mrs. A. N. Rider, 8 quarts, 2 glasses jelly; Mrs. T. J. Drake, 5 quarts; Mrs. B. J. Drake, 7 quarts, 1 pint preserves; Mrs. J. H. Walton, 2 quarts; Mrs. O. T. Rider, 1 quart.

Contributors of fresh vegetables—Mrs. O. B. Rider, Mrs. A. N. Rider, Mrs. T. J. Drake, Mrs. B. J. Drake, Mrs. C. P. Jones.

Contributors to Table: Linen—Mrs. C. P. Jones. Silver—Bowl of fruit, Mrs. B. J. Drake. Fried chicken, Mrs. A. N. Rider. Vegetable dish, Mrs. A. N. Rider. Metal Racks, Brant's Drug Store. Salad, Mrs. T. J. Drake.

Pickles, Hope Furniture Co. Glasses, chair, Hope Furniture Co. Glasses, candles, Scott Store, arranged by Mrs. Audrey Derryberry Smith and

(Continued on page three)

Special Jury for Hembree Monday

Probe and Circuit Court Trial to Require About 10 Days

A special Hempstead county grand jury will be summoned at Washington next Monday, October 26, to investigate the case of Hiram Hembree; it was decided at a conference of authorities Thursday.

The decision was made at a meeting of Circuit Judge Dexter Bush, Prosecuting Attorney New Stewart, Sheriff Jim Bearden and County Judge H. M. Stephens.

Hembree, 35-year-old farmer who lived alone near DeAnn, shot and killed Van Derryberry, neighbor, 65, on a downtown street in Hope last Saturday. Hembree refused to make any public statement, and authorities have apparently been unable to establish any motive for the murder.

Officials said Thursday they believed the Hembree case would be disposed of within 10 days.

Divorced After 10 Years

TISHOMINGO, Okla.—(AP)—Forty-year marriage ties failed to hold for Acheson Annotubby, 80. He obtained a divorce from his wife who, he said, left him in 1930. They were married in 1886.

Fascist Rebels' Vessels to Shell Munitions Ships

Insurgents Reported to Have Sent Warning to European Powers

ABANDON CAPITAL?

Government Believed Moving From Madrid to Barcelona

SALAMANCA, Spain.—(AP)—The Spanish insurgents were reported Thursday to have ordered their warships to sink any Russian ships carrying arms to Spain's government troops.

The reports, not immediately confirmed, said the insurgents were sending communications to European nations informing them of the decision.

To Abandon Madrid?

PARIS, France.—(AP)—Madrid, dispatches to the newspaper Paris-Sol said Thursday that the Spanish government had decided to move to Barcelona.

Direct advices from Barcelona stated that President Manuel Azana had already installed permanent offices there.

Fascists Gain Steadily

WITH THE INSURGENT TROOPS OF GENERAL JOSE VARELA, at Naval Carnero, Spain, 18 miles southwest of Madrid.—(AP)—The insurgents' big push on Madrid gained relentless momentum Thursday.

Entrenched in this key city, torn from government defenders by shells, bombs, and the steel hands of fierce Moorish soldiers, General Varela's shock troops pulled themselves together to thrust the Fascist spearhead down the last few miles to the capital.

To the north, Lieutenant Colonel Rada's artillery blasted historic El Escorial to further straighten the Fascist lines all along the western front.

Germany Replies

LONDON, Eng.—(AP)—Germany has accused Soviet Russia of shipping arms to the Spanish government disguised as food, an informed source said Thursday.

This source disclosed that the German note to the non-intervention committee, transmitted to London prior to Friday's meeting of that group, also denied vigorously all charges that Germany had shipped arms to the Spanish insurgents.

Winter Is Headed Toward Arkansas

Low Temperature of 42 Degrees Is Forecast Here This Week

LITTLE ROCK.—A temperature drop to this season's low mark, accompanied by rain, was forecast for Arkansas this week by the Weather Bureau. A minimum of 42 degrees, seven below the previous low for the month of 49 degrees on October 18, was predicted for Little Rock.

Cloudy and colder weather for the state Thursday was forecast.

Favorable weather for cotton was reported in the weekly crop survey issued Wednesday for the preceding week by the Weather Bureau. Cotton picking is progressing rapidly, though a considerable part of the crop remains in the fields in central and eastern sections.

Favorable weather for corn was reported also, with some late corn continuing to develop. Most of the crop is ripe and the greater part has been cured. Harvesting is virtually completed in some sections of the state, but fields in the lowlands of eastern Arkansas still contain most of the crop.

Landon, Ill, Sent to Bed for Rest

Ordered to Save His Voice While En Route to Oklahoma City

EL PASO, Texas.—(AP)—Governor Landon, Republican presidential candidate, was ordered by Dr. Frank Schuster Thursday to remain in bed on his special train en route to Oklahoma City.

Dr. Schuster told the governor that a throat infection he is suffering might spread to his larynx and temporarily destroy his voice unless he rests.

Cotton

By the Associated Press

NEW ORLEANS.—(AP)—December cotton opened Thursday at 11.77 and closed at 11.76-77.

Spot cotton closed steady at revised quotations, middling 12.22.

The Family Doctor

Headaches Have Many Different Causes.

By DR. MORRIS FISHBEN
Editor, Journal of the American Medical Association, and of Hygiene, the Health Magazine.

The many kinds of headaches, and their treatment, are discussed by Dr. Fishben in a series of articles, of which this is the first.

There are so many different kinds of headache that physicians find it hard to classify this disturbance in their discussions of disease.

Sometimes the headache is classed among the nervous ailments, sometimes among those due to disturbances of the eye or of the nose.

Quite frequently the headache is mentioned in discussions of first aid, because most people try to treat their own headaches at home.

Enough attention has been given to the subject in recent years to permit a better understanding of the causes.

Naturally, when there are many different causes, it is important to find out the real one before applying any specific form of treatment. It is better not to subdue the headaches with the sedative drugs unless the cause is understood to some extent.

Sixteen varieties of headache recently were classified by one specialist in nervous and mental diseases.

When a headache is due to a brain tumor or a brain abscess, there is only one possible relief; namely, removal by surgery. Fortunately, these are not the principal causes of headache.

Occasionally a headache is due to an

infection of the brain by some germ. Here the attack should be made through the body generally rather than directed specifically toward the head.

Some headaches are associated with a rise in blood pressure and hardening of the arteries. Here again treatment should apply to the general conditions.

A common form of headache is that due to infection of the sinuses around the nose. In such ailments the sinuses are treated. Sometimes the frontal sinuses which lie above the eyes, on each side of the nose, become blocked, causing a certain type of headache. It is possible for a specialist in diseases of the nose to apply treatment which will relieve the blocking and thus prevent further development of headaches.

Pain coming from infection of the sinuses usually is worse in the morning or at midday, and then lessens in the late afternoon or early evening. The reason for this is that the sinuses begin to drain after the person has been in an upright position or eight or 10 hours.

The degree of pain is not always an indication of extent of infection. Sometimes a small infection in one sinus will cause much pain. In other cases a large infection will bring relatively little pain, everything depending on the extent to which the infection has opportunity to drain out of the sinuses.

Your Children

By Olive Roberts Barton

Superstition Works Against Happiness

It is very difficult to rid the child of superstition. Even those who stoutly deny that they have any tricks with omens and charms nearly always hide belief in signs. And if they also deride the "hunch" or "lucky streak," we'll find them talking about thought waves and such.

When we get into the latter realm, it is hardly right to call it superstition. On this subject, what eldritch have been written. I myself, like most people of philosophical turn, know that the mind is capable of unobvious activities. So why deny that about which we know practically nothing? It would be like denouncing radio because we don't understand it. But there it is.

However, the fact stands that whether we go in for the deeper sciences or have an obsession about clovers and horse shoes, black cats and ladders, there is in every man, woman and child a strong affinity for superstition. So, as I have said, it is not easy to rid our children of it.

Become Psychic Slaves

The intelligent thing to do is to frankly tell them that there is nothing in mere things. The umbrella raised in the house, crossing fingers to ward off disaster, carrying a lucky piece or wearing a certain hat have no more power than a drink of water. What they do is to make a person feel more confident, and very often more discouraged, as in the case of the ladder, or black cat. And accent this, that the result of such beliefs works against the person's happiness nine times out of ten. He gets so nervous and cowardly that he gets to depend frantically on every little thing he sees.

When this happens, he is a slave of the worst kind. He won't enjoy anything he does but will be forever looking forward to that awful thing the ladder says will happen or the innocent black cat picked out for him when it crossed the road. His whole life will be miserable.

Tell him that the secret of his confidence when he feels that lucky monkey, key, or horse or coin in his pocket, is in his own mind. He can use his mind quite as well without it. He can say to himself: "I am going to be able to win in this race, because I think so. Because I can. Because some little spirit of courage inside of me says, 'You can win it. You will do it.'"

People Reflect Your Attitude

Tell him also that he gets back what he gives. If he hates people, they will hate him. If he keeps his feelings a secret, but if he is trying hard to like people, they will certainly make him feel better. His whole conduct and the way he thinks will be all the luck he needs. He has to have luck also, and stop feeling shivery and sorry for himself. If he makes mistakes he can't very well help, well—every one makes mistakes.

They say the greater the man, the more mistakes he has made. Active people always are making them. But no charm will help him out. If he has courage of stand disappointments and doesn't brood too much, and can pick himself up and go right at it again, that's the swiftest lucky piece he can carry. Kindness, courage, self-confidence. These are the fetters of success.

Surprise!

Armand felted, and his makeup began to melt. Then Camille reached him down to her level, and gave him a kiss. It was by no means a flitting kiss such as the script demands. It was a fervent, ecstatic, thorough kiss. It was a 23,000-volt kiss that would have shocked a censor into acute position.

Simple, but crammed with tragic

Help! Private Initiative Is Being Strangled!

Taylor's reaction was that of a man who had been bashed on the noggin with a crowbar. He staggered around in circles, only half conscious of the delighted whoops of the company and crew.

Miss Garbo went back into character immediately, smiling her cool, quizzical smile as though wondering what all the confusion was about.

It is believed that Taylor will recover, except that he now is more than over in awe of Miss Garbo. And he probably hopes that word of these amazing goings-on won't reach Barbara Stanwyck.

Hollywood Ribbed
Cameras are turning on the final scenes of "Go West, Young Man."

through which struts Mae West in the role of a malapropos, amorously predatory movie star stranded briefly at a tourist inn during a personal appearance tour. It's a fine role for Miss West, and she loves it.

By showing you what may be taken for typical representatives of talkie-town, the picture (closely following the play, "Personal Appearance") ribs Hollywood unmercifully. It opens on a movie within a movie—an audience is shown viewing the concluding sequences of an over-acted hand drama in which Mavis Arden is supposed to have starred.

Then Miss Arden herself appears on the stage to say a few ill-chosen words to her dear public.

There have been anxious disavowals on the part of everybody that Miss West's part is intended as satire on any particular Hollywood individual. An impression, however, persists that Miss West may be satirizing Miss West.

You ought to see her swing it in that brief movie-within-a-movie: her spine goes 30 degrees out of plumb every time she takes a step. And the sets, complete with a gold-frescoed Piano and similar atrocities, are pure Brooklyn baroque.

The satire strikes pretty close to home on one point. They wanted to find an automobile for Mavis Arden which would be just about the last word in ostentation. That was easy.

They rented the glittering new \$20,500 limousine which belongs to Connie Bennett.

Political Announcements

The Star is authorized to announce the following as candidates subject to the action of the Democratic primary election in the City of Hope, Ark., Tuesday, November 24, 1936:

For Mayor
R. A. (RUFF) BOYETT
ALBERT GRAVES

A Book a Day

By Bruce Catton

Splendid Anthology of "New Republic"

In November, 1914, a new magazine made its bow to the American reading public—a rough-paper affair, dedicated to improvement of the American democracy by a process of intelligent and searching criticism.

Ever since then that magazine, the New Republic, has been one of the important civilizing forces at work in America. It has occasionally been shrill and it has occasionally got off on the wrong foot and now and then it has irritated some of the few people whom it did not intend to irritate—but in the main it has been a valuable and outspoken organ of the civilized minority.

There is at hand today an excellent compendium of the magazine's 20-odd years of activity—"The New Republic Anthology" (Dodge: \$3), edited by Groff Conklin and containing some 500 pages of essays, poems, editorials, reviews, and reportorial articles which were printed in the New Republic between 1915 and 1935.

There is first-rate stuff in this book, and one proof of it is the fact that so many of these pieces read just as well now as they did when they first appeared. Considering the fact that there is supposed to be nothing so dead as last week's journalism, this is real proof of enduring merit.

One can quarrel with any anthology, of course. I could wish that more of the earlier pieces had been reprinted and fewer of the later ones; I would particularly like to see more articles from that period when the New Republic followed the Wilsonian line so closely that it was rumored to be Wilson's personal organ.

But that is a quibble. All in all, the book is a fine job, filled with thoughtful and illuminating writing; the record of a long and effective fight for liberalism.

Ancient Egyptians possessed such musical instruments as the harp, guitar, pipe, trumpet, and drum, according to

Railroads of the United States owned 45,000 locomotives on March 1, 1936, as compared to 60,000 on the same date in 1928.

More than 20,000,000 pieces of mail, weighing more than 7,500,000 pounds were franked last year, according to estimates of the Post Office Department.

Acts for Peace in Labor Split

Coming to the fore as a peace-maker in the A. F. of L. and C. I. O. split, Max Zaritsky, above, has offered a plan whereby the factions would get together on an equal basis and settle the craft-vertical unionization dispute. Favorable reception has been given the idea. Zaritsky heads the United Hatters, Cup and Millinery Workers' union.

Washington

Mrs. Ella Gold visited in Monday.

Dr. J. L. Booker returned Saturday from a several days' visit in Nevada county.

Mrs. J. R. Card and Mrs. Jim Carden spent Saturday in Hope. Mrs. S. E. McPherson and her son of Hope spent several days last week with Mr. and Mrs. A. P. Bailey. Miss Lucille Hulsey spent night with relatives in Hope. Mrs. Luther Smith visited in Monday.

Transcontinental air passengers changing in modern transport planes will change their watches three times during the trip to conform to time zones.

Paul Revere made two rides to the colonists; on April 16, 1776, and again two days later.

Don't Sleep on Left Side

Crowds Head

GAS PRESSURE MAY CAUSE DISCOMFORT

RIGHT SIDE BEST.

If you toss in bed and can't sleep on right side, try Adierika. Just ONE dose relieves stomach GAS pressure on heart so you sleep soundly. Adierika acts on BOTH upper and lower bowels and brings out 100 percent of the gas, relieving the pressure in your system. This old medicine has been used for months and months by 94.8 percent of the people who are nervous.

JOHN S. GIBSON DRUG CO.

A Three Days' Cough Is Your Danger Signal

A cough, chest cold or bronchial irritation today may lead to serious trouble tomorrow. You can relieve them now with Creomulsion, an emulsified Creosote that is pleasant to take. Creomulsion is a medical discovery that aids nature to soothe and heal the infected membranes and to relieve the irritation and inflammation as the germ-laden phlegm is loosened and expelled.

Medical authorities have for many years recognized the wonderful effects of Beechwood Creosote for treating coughs, chest colds and bronchial irritations. A chemist worked out a special process of blending Creosote with other ingredients so that now in Creomulsion you get a real dose of Beechwood Creosote which is palatable and can even be taken frequently

and continuously by adults and children. Thousands of doctors now use Creomulsion in their own families and practice, and druggists rank Creomulsion top because in this genuine, original product, you can get a real dose of Creosote, so emulsified that it goes to the very seat of the trouble to help loosen and expel germ-laden phlegm.

Creomulsion is guaranteed satisfactory in the treatment of coughs, chest colds and bronchial troubles, especially those that start with a common cold and hang on end. Get a bottle of Creomulsion right now from your druggist, use it all up as directed and if you fail to get satisfactory relief, he is authorized to refund every cent of your money. Get Creomulsion right now.

SALUTE TO Love

BEGIN HERE TODAY

KATE and CAROLINE MEED live on a Blue Grass farm. Meed Meadows, with their indolent, lovable grandfather, MAJOR SAM MEED, and two old Negro servants, ALTHY and ZEKE. Kate is engaged to handsome MORGAN PRENTISS, who neglects her for EVE ELWELL, beautiful and wealthy.

Major Meed, addicted to drink, loses Meed Meadows to JEFF HOWARD, bitter young mountaineer who owns coal lands. Kate treats Jeff rudely and he responds with insolence, though he is drawn to her and cannot get her out of his mind.

The Meeds move into "Ricketty House," a tenant house nearby. Kate and Caroline are invited to a dance at the home of a friend, CYNTHIA CHENAUET. They meet an old lady who asks them what has become of the buried Meed silver. Questioning her grandfather, Kate learns a valuable silver service was buried during the Civil War and never located. She realizes that it lies on land now owned by Jeff Howard, and begins to plot for its recovery.

NOW GO ON WITH THE STORY CHAPTER XIV

KATE told herself, "I'll go about this lost silver business like a detective." And she did.

She asked her grandfather to repeat the story of the buried tea service in detail until he was impatient with her persistence. She probed Zeke's memory for all that it would yield. Both of them knew of the silver's burial only from hear-say, yet what they did know was exact and valuable for Kate's purpose. She carried a notebook around with her, and when she got a clew she wrote it down.

Caroline said to the Major, "It's as if she's obsessed, Granddad! What on earth does she hope to get out of it?"

"I've no idea," replied the puzzled old man.

Kate became so engrossed that she failed to notice the steamy hot weather. Stranger yet, she seemed not to notice Morgan's neglect of her. She had written in her notebook about Pompey, the butler. He was said to be genial, pleasant with guests. Honest, except about liquor. Loyal. Proud of family traditions. Lazy. . . .

"Honey," Kate said to her sister one warm day, "did you ever think what it would mean to us if I'd find the Meed silver?"

"Just something to gloat over," answered Caroline. "And to polish. Imagine it in this cube of a dining room. Ridiculous."

Kate said, as if she had thought it out long ago, "No! We'd sell it!

Gran'dad's pension hardly keeps us in food. I'd get enough out of it to stock us with staples for the winter and to send you to the University this fall. I'd not be sentimental about the stuff, Caroline. I've killed all the sentiment that's in me, because it's sentiment that's hurts. We'd sell it, I tell you! Sterling silver, and old and beautiful, and once set before LaFayette! What a price we'd get!"

Caroline said sharply, "I don't believe a word of that LaFayette story. I doubt if General LaFayette had time to go around drinking tea in people's houses during the Revolution."

"You're crazy," Kate told her. "It was years after that. I've looked it up at the library. It was during his third trip to America in 1825 when he came to show America to his son. Old newspaper records say he went from Louisville to Frankfort down the State Pike in an open barouche with quite a retinue trailing him. He spent the night at a tavern in Shelby, and the next day he stopped at the old Keys Inn on the other side of the county."

"Did they mention his stopping at Meed Meadows?" asked Caroline pointedly. She intended the question to act as a dash of cold water.

Kate was not dashed. "The papers didn't, but an old family Bible does. The one that was locked away in the leather trunk. I can show it to anybody who wants proof. But listen! I've copied it down: 'On this day, May 12th, 1825, the Marquis de LaFayette and his retinue were invited to turn in at Meed Meadows and refresh themselves. Which they did, to the pleasure and honor of this house. Tea, wine, cold cuts and gingered pears were served, the Marquis admiring our new silver tea service. A courteous man and a good one.'" Kate concluded breathlessly, "It's signed with our great-grandfather's initials, 'M.'"

"Well," exclaimed Caroline, impressed in spite of herself. "Your snooping's done that much, anyway. We can always be proud of LaFayette's call, can't we? Come on now, darling, and get at those beans."

That was the day Kate convinced herself that she knew where the silver lay buried.

When the Major and Caroline went to sit on the porch after supper, Kate did not join them. She went, instead, to the little bedroom under the roof and there lit a lamp, making the room yet hotter. But she did not notice the heat. She was engrossed in her deductions. She was drawing diagrams and talking aloud to herself.

"It's buried under the big oak in the left of the front porch. It's buried on the west side, six feet or more from the base, and not very deep. . . . That's the oldest tree on the place. It stands nearer the front of the house than any other. . . . All right. Pompey was lazy. The silver was heavy. He must bury it near a tree in order to mark the place. He'd been told to select a tree in the back yard or orchard, but the oak was a lot nearer. . . . All right. The day was hot. Pompey would have picked the shady side to work on. Gran'dad remembers his mother saying it happened in the morning. The shade would have been to the west, inclining south a little. . . . Pompey was lazy. It happened in August. The ground was probably dry and hard. Pompey wouldn't have dug deep. . . . It's there! Not more than four or five feet down. . . . That's where the Meed silver is!"

She blew out the lamp and went downstairs, walking softly so that Caroline and the Major would not hear. She went through the kitchen and outdoors, to the quarters of Althy and Zeke. There she found them on the little brick-floored porch before their room, sitting as they usually sat before they went to bed. She could just discern them in the darkness—Zeke by his pipe, Althy by her white apron.

Kate said softly, "Is Rutherford B. asleep?"

"Yes'm, Miss Kate," answered Althy. "Why for you ask?"

KATE took the ricketty chair Zeke offered her, and sat down. Her knees were trembling like her voice. "Because there's something important we must talk over. Listen, you two! I've found out where the Meed silver was buried!"

"What?" they asked together. Kate told them, giving the reasons for her belief.

There was no response for a time, then Zeke said with surprising clairvoyance, "It seems like you want to go dig fer it tonight, Miss Kate."

"Would you be afraid?" asked Kate quietly.

Althy remarked unexpectedly, "Dis here's a nice dark night. There was something portentous in her words."

"You see, Zeke!" Kate said triumphantly, "Althy thinks we ought to go!"

"Lawd, honey! Althy goin' too!" announced the old woman. They drew closer together in the darkness and made their plans. A bat wheeled low, his taut, pointed wing almost brushing Kate's shoulder, but she did not notice.

Garbo Staggers Screen Lover Taylor With Smack on Kisser!

HOLLYWOOD.—The Great-Garbo played a beeg joke on Robert Taylor the other day. It was a joke that would have flabbergasted any man. It staggered Mr. Taylor.

Cinematically, he is rated as a great lover. Actually, he is still pretty shy. During the more than two months of filming "Camille," Taylor's attitude toward Miss Garbo has been one of deference mingled with a little awe. Clearly he is just another of the millions who have been impressed by the Garbo legend.

They were rehearsing one of the final scenes in the picture. It was the scene of their parting: Camille kisses Armand, stands there a moment, goes to him very lightly, and goes away.

Simple, but crammed with tragic

tension. It had to be done just right, and delicately. They tried it a couple of times, then squared off for a third rehearsal. Miss Garbo decided to make this one a little different. It wasn't paths that showed in her eyes as she stood before him, and it wasn't wistful sorrow that she registered as she began twisting his lapels.

Surprise!

Armand felted, and his makeup began to melt. Then Camille reached him down to her level, and gave him a kiss. It was by no means a flitting kiss such as the script demands. It was a fervent, ecstatic, thorough kiss. It was a 23,000-volt kiss that would have shocked a censor into acute position.

Simple, but crammed with tragic

Society

Mrs. Sid Henry Telephone 821

Oh, a wonderful stream is the River Time,
As it runs through the realm of tears.
With a faultless rhythm and a musical rhyme,
And a boundless sweep and a surge of sublime.
As it blends with the Ocean of Years,
There's a magical isle up the River Time.
Where the softest of airs are playing;
There's a cloudless sky and a tropical clime,
And a song as sweet as a vesper chime,
And the June with the roses are crying.
And the name of that isle is the Long Ago,
And we bury our treasures there:
There are brows of beauty and bosoms of snow,
There are heaps of dust—but we loved them so!
There are trinkets and tresses of hair,
Oh, remembered for aye be the blessed Isle,
All the days of our life until night;
When the evening comes with its beautiful smile,
And our eyes are closing to slumber awhile,
May that "Green wood" of Soul be in sight.—Selected.

Circle No. 2 of the W. M. U. First Baptist church held its October meeting at the home of Mrs. Emmet Whitlen S. Grady street, with Mrs. Foster Wiggins as joint hostess. Mrs. W. C. Andres conducted a most interesting Bible study, using the Book of Leviticus as her theme. Following the study delicious refreshments were served to ten members.

The regular bi-weekly meeting of the Bayview Reading club was held on Wednesday afternoon at the home of Mrs. R. M. Brant on North Washington street. Quantities of colorful dahlias gracefully arranged were used throughout the rooms making a lovely setting for the gracious hospitality of this attractive home, which combined with a delightful afternoon and a splendid attendance and an instructive program made the meeting outstanding. The program continued the study of Arkansas and was presented by Mrs. J. A. Henry, and included the counties of Sevier, Polk, Little River and Miller. Mrs. Henry gave the territorial history of the counties and presented Mrs. Fanny Garret who gave the In-

dustries and Products followed by Mrs. Arch Moore who discussed the Resorts and Playgrounds, touching on the scenery. The program closed with a discussion of the Pioneers and Modern Business period. Mrs. W. R. Hamilton, Mrs. Hammons and Miss Beryl Henry were welcomed as new members. Assisted by Mrs. O. A. Graves, Mrs. C. D. Lester and Miss Henry, the hostess served a most tempting sandwich and salad plate with coffee.

Among the many delightful parties of the early fall, was the miscellaneous shower given by Miss Lucille Wiggins at the attractive home of her sister, Mrs. Seever Gibson on South Grady street, with Mrs. Herbert Lowallen, a recent bride as honoree. The rooms were beautifully decorated with gorgeous Mexican sunflowers and cosmos, developing a very pleasing color scheme of yellow and green. Bridge and other games were played, with the prizes going to Mrs. John Owen Jr., and Mrs. Jack Williams. The honoree was showered with a number of lovely gifts, and the hostess assisted by her sister served a most tempting salad course with tea.

With Mrs. J. L. Gray, a recent bride as honoree, Mrs. Thos. Massey entertained Wednesday evening at a very delightful miscellaneous shower, at the home of Mrs. J. A. Ramsey, 503 West Division street. Autumn leaves and Halloween colors were used in decorating the rooms and the bridal motif was stressed in the games, favors and refreshments. The guests were met at the door by Miss Harriet Story, whose costume heralded the Halloween season. The contest prizes were won by Miss Story and Miss Lucille Wiggins. The numerous and lovely gifts were presented in a laundry basket by Miss Loraine Whitehurst, who addressed the honoree in the subject of the line honored black mammy wenchwoman. Following the opening of the gifts the hostess served a tempting open faced sandwich course with tea.

Dr. and Mrs. J. W. Branch have as house guest this week, Dr. Branch's mother, Mrs. W. M. Branch of Little Rock.

Mr. and Mrs. C. S. Lowthorp and their guests, Mr. and Mrs. Chas. Lowthorp were Thursday visitors in Hot Springs.

Mr. and Mrs. Harold King have returned to their home in Dallas after a visit with Mrs. T. R. King and Mrs. Lucille Diddy.

Miss Hattie Honeycutt, W. H. Pinn of Mort, Texas and Miss Thelma Mitchell of Ashdown who have been visiting Mr. and Mrs. J. J. Honeycutt, this week, left Thursday for a visit in Pine Bluff and Little Rock.

Mr. and Mrs. Charlie Cox have returned from a vacation trip to the Texas centennials in Dallas and Fort Worth.

BEHIND THE SCENES IN WASHINGTON

By Rodney Dutcher

WASHINGTON—When President Roosevelt refers to the election as "in the bag," that's what he believes.

The president's unquenchable optimism is so pronounced among his characteristics that this self assurance is hardly to be recommended as a tip to gamblers. It does, however, provide the key to one of the chief phases of New Deal campaign strategy as laid down by F. D. R. himself.

He has insisted that Democrats must not embark on a slambang, bitter, harsh-tongued attack. Some of his advisers have argued heatedly with him about this, stressing the need for their own personal desire to "take the hide off" Governor Landon and other opposition leaders.

But Roosevelt, confident that he can afford to avoid that sort of thing, insists that he is most of all desirous of having as little bad feeling in the country after the election as is possible.

The president—and this goes for many other New Dealers—is said to fear that the nation must sooner or later face the menace of Fascism. The more bitterness and class hatred now stirred up, he is reported to feel, the harder it will be to combat that threat. Of course if the president gets the jitters before election day—and some of his best friends think he is much too confident—he probably will let the boys take off their wraps. For the present he holds that only the more "glaring" examples of opposition propaganda should be answered.

Among the barb-tongued gentry who have been severely curbed by this policy are Secretary Ickes, Harry Hopkins of WPA, Gen. Hugh Johnson, and Senators Lou Schwelmbach of Washington and Burt Wheeler of Montana. "American Way" is Old Cry.

Political researchers have found that the expression "the American way," which is being plugged heavily in this campaign, was first used by Henry Clay when he ran unsuccessfully as the Whig candidate against James K. Polk in 1844.

Gerald K. to Tell "All!"
Your correspondent gets inside tips even from the camp—or perhaps one should say the tent—of the Rev. Gerald L. K. Smith, who is campaigning ostensibly for Lemke, but primarily for the future power and glory of the Rev. Gerald L. K. Smith.

Gerald's pals whisper that he is going to "tell all." They say that he has the late Huey Long's secret files and that he will drag therefrom some hot dope concerning Jim Furely, the "real story" of Jimmy Roosevelt's insurance business operations, and other "revelations" of sensational nature.

There's no doubt that the Rev. Mr. Smith will try very hard. But if he produces any new facts which cause more than a tiny ripple in the campaign, he will be surpassing all his previous efforts, which invariably have been on the wild side.

Unless your correspondent has been sadly misled, the secret files of the late Huey—the sensational nature of which probably was overrated—passed into the hands of his secretary, Earl Christenberry, and thence into the possession of Mrs. Long.

Guessing on Cabinet Berth
Nobody knows yet who will be the next secretary of war, although many are guessing. Three possibilities are General Johnson, Gov. Paul McNutt of Indiana, and Acting Secretary Harry Woodring of Kansas. But it is easy to cite reasons why none of them will get the job. (If Landon is elected, of course, the post will go to a Republican).

Gov. Jim Curley of Massachusetts, was in Washington a while ago promoting Gov. Louis Brandt of Maine—a defeated senatorial candidate—for the berth. But one of his representatives later telephoned Woodring, who was then at the American Legion convention in Cleveland, and said that if Woodring would persuade Mayor Bob Greenwood of Fitchburg to withdraw his independent candidacy for senator, Curley would support Woodring for the permanent, full secretaryship. Woodring denies there was any deal, but Greenwood has withdrawn.

General Johnson is believed to desire the job, but most administrationists consider him too erratic and undependable in his public statements, although admitting he has helped effectively in the campaign.

Governor McNutt could use the sec-

Tax Control Given

(Continued From Page One)

principle of taxation according to ability to pay.
Under the administration, he said, the individual income tax of the average American has been reduced. He added:
"Any family head who earns an income of less than \$26,000 a year pays a smaller income tax in 1936 than he paid in 1932. That means that less than one per cent of the heads of American families pay more than they did; and more than 99 per cent pay less than they did, for more than 99 per cent earn less than \$26,000 per year."
"If you want the answer to this talk about high taxes under this administration—there is. Taxes are higher for those who can afford to pay high taxes. They are lower for those who can afford to pay less."

A few minutes before, he asserted: "Here is my principle. Taxes shall be levied according to ability to pay. That is the only American principle."
He described the principle of the undistributed profits tax of 1936 as "sound" but said that "if in its application, imperfections are discovered, they must be corrected for the good of American business."

175,000 Turn Out
BOSTON.—(P)—President Roosevelt sat in a car on Boston Common Wednesday and asserted that five additional years of depression was New England's "doubt" to the "Republican leadership," but that under the New Deal the region is "coming out of its troubles." He paused in Boston on the way to Worcester.

A crowd that city officials estimated at 175,000 jammed into the Common to hear the president's sixth speech of the day. National guardsmen were called to aid Boston officers in keeping a road open for the president's car.

Henry Long, Boston park commissioner, said it was the largest crowd he had ever seen on Boston Common.

From Charles street, up over the Common hill to Parkman bandstand, where the president spoke, the Common was a mass of people straining at police lines.

Along the way by auto through part of Rhode Island and Massachusetts Mr. Roosevelt had encountered such huge, uncontrolled crowds that his aides telephoned ahead for the assistance of state troopers in keeping the throngs in hand.

Nashville Expecting Record Crowd Friday

Possible State Title Hinges on Outcome of Tilt

Nashville, With Best Team in History, to Be in Good Shape

NASHVILLE, Ark. — (Special) — Southwest Arkansas holds the high school football spotlight this week with the attraction centered at Scrapper field here between two of the strongest football machines in the state, the Nashville Scrappers and the Hope Bobcats. The winner, should it go undefeated through the remaining part of the season, hopes to lay claim to the mythical state championship.

Both coaches, Lester Bradley of the Scrappers and Foy Hammons of the Bobcats, have seen their eleven-year-old teams in the state this season and come out with the long end of the score. Now they find themselves face to face at the point where each will either see all this practicing, planning and playing go for naught, or vision that much coveted claim to the state championship. Which coach will be all smiles when the game is over can be answered only after the last whistle has blown and the smoke of battle cleared away.

Best Team in History
The Nashville team, built around that football famous family, the Tollets, has enjoyed one of the best seasons in the history of football at Nashville which has in the past produced some of the most outstanding college and university gridiron performers in the state and nation. They have met and defeated some of the supposedly strongest teams in the state and now await the arrival of the Bobcats, the biggest obstacle they have faced or will face all season.

Going over to Hope, the den of the furious Bobcats, the grid fans find a team with equally as good a record for the season. The Bobcats have scored at will over most of their opposition and indicate that at last Foy Hammons, famous throughout the state for his former championship teams, has again built up a team of championship caliber and hopes to come through Friday night with a victory over the Nashville team that will place him and his team at the top of the high school heap from which they can look out and see as their reward, a claim to the state championship.

Scrappers in Good Shape
Coach Bradley said Wednesday that all his regulars except Green will play Friday. Underwood or Reese will start in his place at tackle. The only comparison available between Hope and the Scrappers is the Hope defeated Smackover, 7 to 0, while Nashville took the Buckaroos, 13 to 0.

Several games in this section have been moved up to Thursday in order that fans may see the game here. An extra 1,000 bleachers have been borrowed from Ouchita college. A special train will leave Benton Friday afternoon and pick up fans along the route to Hope where it will pick up six coaches.

Since 1921, Nashville has defeated Hope nine times while Hope has won five games. One was a scoreless tie.

A colony of bats in a cave near San Antonio, Tex., devour approximately 600 tons of live insects annually.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache only to find that the real cause of the trouble is their kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. Most people pass about 3 quarts of urine daily, getting up at night, swelling, puffiness under the eyes, headaches and dizziness. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will keep the 16 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Bobkittens and Blevins Hornets Battle to 6-6 Tie Here Wednesday Night

Winning Plays of 1936

By ART KRENZ
NEA Service Sports Artist
The winning touchdown which Dukes scored against Pitt, a give that highly touted Panther array its first defeat of 1936 and blast its hopes for a trip to the Rose Bowl, came on a typical Notre Dame off-tackle smash that sent replacement back, George Matsik, off on a 72-yard gallop from his own 28-yard line.

On a muddy, rain-drenched field,

Duquesne pulled one of the biggest upsets of the season by holding the vaunted Pitt power in check, and defeating the Panthers with the same tactics which Jack Sutherland's team had used to drop Ohio State the week before—power plays off tackle.

Here's the way the play worked:

Following an end run, and with Pitt lined up in a 6-2-2-1 defense, the Dukes shifted to the left. The ball was snapped to Matsik who followed

Quarterback Zoppetti through the hole. The latter took out Bill Stapulis, Pitt fullback, while Dequesne's left end, Platukis, and Brumbaugh, left half, worked on Pitt's right tackle. Brumbaugh then went on through to partially block Larue, Pitt right half, out of the play. The Dukes' fullback, Matsik's run was merely a question of outstripping Larue, Michelosen, and Bill Daddio, Pitt end, to the goal line after his mates had blocked perfectly.

Season on Grid Coaches Opened

Harry Kipke Is on the Pan at Michigan—Rumors at Ohio State

By HARRY GRAYSON
NEA Sports Writer

Season on football coaches has been declared open earlier than usual this year.

Harry Kipke is on the pan at Michigan.

Successive defeats by Pittsburgh and Northwestern were a little too much for Ohio State's Monday morning quarterbacks, and Francis Schmidt is getting his first taste of what Sam Williamson and Dr. John Wiley endured before him.

Fred California speaks of a big name member succeeding Stab Allison following reverses dealt by Saint Mary's and U. C. L. A.

Viv Hanson has weathered many a storm at Syracuse, but is right now experiencing the roughest weather since he assumed command six years ago.

Although his initial campaign at Boston College barely has started, the veteran Gilmour Dobie's ears must be burning as they did during the fag-end of his reign at Cornell.

More than a few North Carolina State supporters have given up on the idea of Hank Anderson leading the Wolfpack to the leadership of the tough tobacco triangle.

The situation at St. Louis University, where Cecil Muellerleile holds forth, already has reached the position stage.

Additional precincts no doubt will be heard from weekly.

Wolves in Full Cry

It required the most protracted streak of disaster in Michigan's history to bring out dissenters, but now that they have taken the floor, their indictments are bitterest of all.

They see considerable talent at Ann Arbor, where the current varsity was bolstered by what the coaches themselves called the second classiest batch of sophomores that ever wore the Maize and Blue. But save for a few moments this season, the Wolverines have been handcuffed on defense, the attack practically nonexistent, and the general football sense faulty.

Many successful Michigan teams had no running attack worthy of the name. But those clubs had something in forward passing.

They had punting and stern defensive qualities, and were intelligently quarterbacked. Of these fundamental Michigan characteristics the only one to put in an appearance this year has been punting. The 1936 edition has attempted preposterous plays.

Michigan is outcharged, and that is fatal. The line is strong, but is not resourceful. Any direct running attack will be stopped, but a complex, shifting, tricky attack baffles the forwards.

Michigan lacks coherence. Michigan players work alone, and the only reason they occasionally do well is because many of them are naturally good players. It goes without saying that Michigan will not again have a good team until the coaching has made it men into a co-ordinated machine.

Schmidt's critics trace his losses to two of the best teams in the nation to his failure to pick out a first string lineup and stick to it to some extent. In the Buckeyes' thriller with Notre Dame last autumn, and against Pitt this trip, they were beaten by blunders of second stringers while vastly more dependable athletes warmed the bench.

California, under Allison, bowed only to Stanford last fall. Allison, who finished out Navy Bill Ingram's term the year before, is hurt chiefly because the Bears were expected to race Washington and U. C. L. A. right down to the wire this season.

Dobie Has Cause for Gloom

Hanson was optimistic at Syracuse, too, but Orangemen slunder to think of what is going to happen to their team, which still has to tackle Penn State, Indiana, Columbia, and Colgate. Little Baldwin-Wallace furnished the first tipoff on the vulnerability of what was reputed to be a strong Syracuse array, and then the Cornell sophomores came along to win the Big Red's first major engagement in three years.

The Boston College storm broke after Temple beat the Eagles.

"For a beat defense, Dobie offered a waiting line and a wonderful backfield," remarked one critic. "For to pass defense he offered a prayer."

Boston College, with a sophomore-packed lineup, repelled Michigan State in 1935, and an exuberant alumni felt that the great days of Maj. Frank Cavanaugh were to be revived overnight.

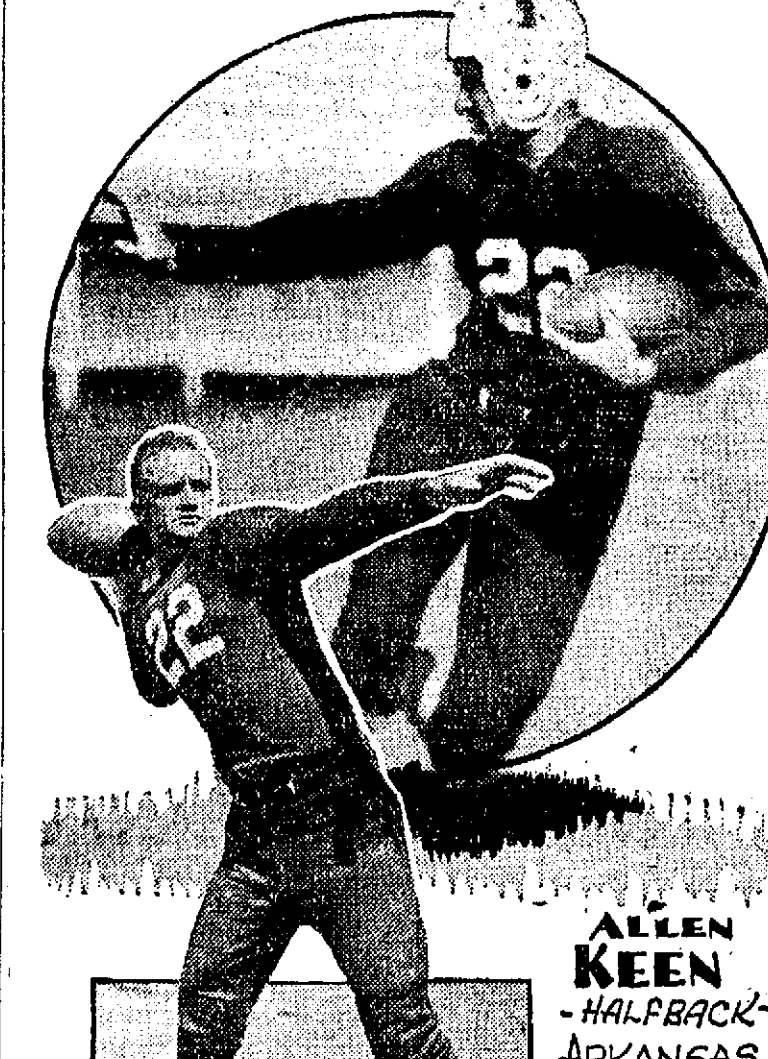

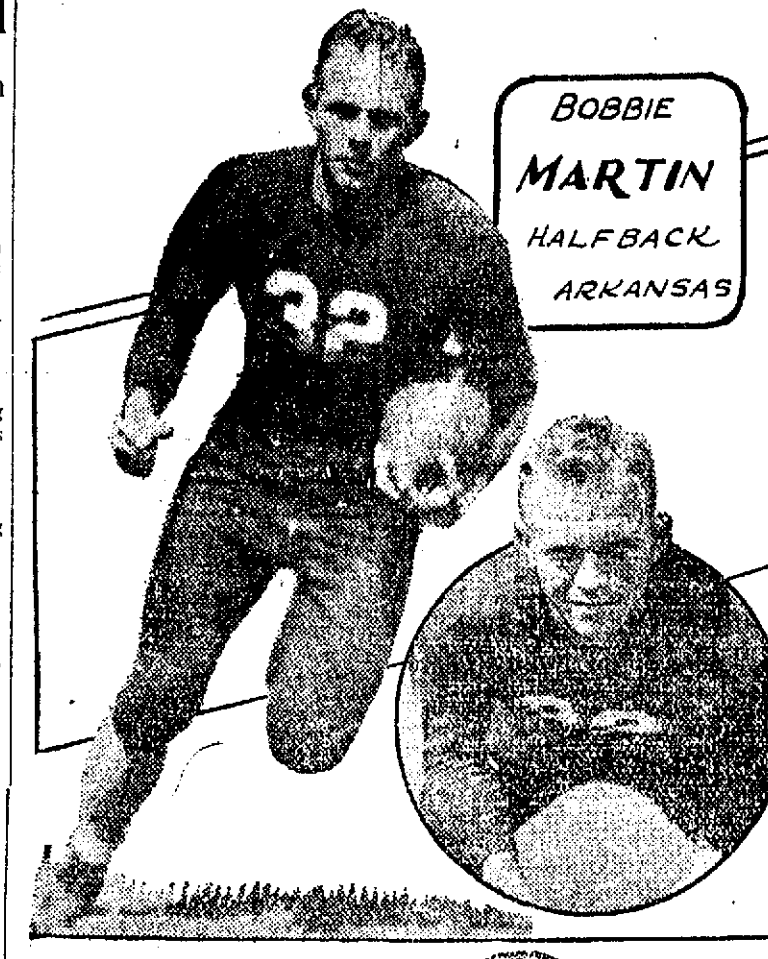

To date, North Carolina State has been repulsed by Davidson, Wake Forest, and Manhattan, with "the Notre Dame system has been outmoded" as Anderson's only explanation.

Anderson admits that he hasn't the worst material in the land, and the Notre Dame system is doing quite well at Dequesne and other places.

St. Louis University material hardly rates in the championship class, but Billikan adherents yearn for the more glorious days of Chile Walsh.

Coaching is indeed a precarious profession.

Hope Comes From Behind to Score in Third Period

Leonard Bearden Get Loose for 50-Yard Run for Touchdown

The Blevins High School football team played its third tie game of the season here Wednesday night against the Hope Bobkittens. The contest ended in a 6-6 draw. It was the 10th game of the season for Hope's second team.

Blevins previously battled Murfreesboro and Bearden High Schools to scoreless ties.

The Hornets were first to score, putting over at touchdown in the second quarter. The visitors intercepted a pass on Hope's 40-yard line and made three consecutive first downs on line plays, carrying the ball to the 4-yard line where Yocum, Blevins quarterback, plunged over. An attempted pass for extra point was no good.

The Bobkittens scored in the third period when Leonard Bearden, jack-rabbit halfback, snaggled a Blevins pass from the air and ran 50 yards through the Blevins team for touchdown. It was the longest run of the game. An attempted line play for extra point failed.

The Hope team marched to Blevins 10-yard line in the same quarter but the visitors stiffened and held for downs.

The Hope team was outplayed in the first half, the visitors making six first downs to two for Hope. Total first downs were Hope 9, Blevins 9.

Yocum and Brooks played best for Coach Charles Teeter's team. Bearden and L. Jones turned in a good game for Hope.

Approximately 500 fans saw the game. Officials were W. C. Page, referee; Earl O'Neal, umpire. The starting lineups:

BOBKITTENS **HORNETS**

Parker Left End White

Purtle Left Tackle Stone

Snyker Left Guard Nolan

Jobe Center Mouser

Watson Right Guard Wardlow

Simpson Right Tackle Cromer

Turner Right End Yocum

L. Jones Quarterback Brooks

Bearden Right Half Bonds

Keith Left Half Taylor

Baker Fullback

Moss Rowe of Tyler, Texas, was the guest of relatives Tuesday and Wednesday.

Mr. and Mrs. T. P. Parsons, Mrs. Sam Bryant, Mrs. J. P. Webb and Miss Margaret Pruitt spent Sunday in Shreveport visiting Woodrow Parsons who is employed there.

Mrs. Carrie Wallace Mason and Marcus J. Wallace of Mt. Pleasant, Texas, were the week end guests of Mrs. Sallie K. Holt. Both Mrs. Mason and Mrs. Wallace are the daughters of the late Dr. J. M. Wallace who organized the Presbyterian churches at Hope and Marlboro and was otherwise prominent during the early history of the county.

Mr. and Mrs. M. G. Black of Conway, visited relatives here Sunday enroute.

STORIES IN STAMPS

By I. S. Klein

WHERE FRENCH KINGS WERE CROWNED

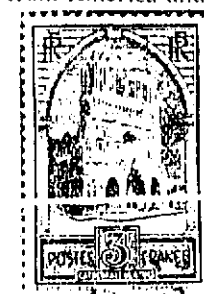

FOR the fourth time, the famous cathedral at Rheims, France, has been rebuilt. It was once the most magnificent church in Europe. On its ground St. Remi crowned King Clovis, in 496 A. D., and there in the ninth century the first Rheims cathedral was built. Here, for centuries, all the French kings were crowned.

After being burned down, it was rebuilt in the 11th century. The cathedral burned again in 1211, was rebuilt, and again destroyed by fire in 1481. During this interval the church contained more than 2300 statues and statuettes, and became known as the "Bible in stone."

Then, during the World War, the Germans rained 30,000 shells upon the edifice, and it became a tragic ruin. Now, through aid from America and other countries, the great cathedral has been rebuilt, matching as closely as possible its former self.

France, in 1930, issued a stamp showing the finished house of worship.

Tests Spur British to High Hope for Television Success

LONDON — (NEA) — through the medium of a portable box that looks like a cash register, London spectators recently sat comfortably in a studio and watched a golf match played eight miles away.

That box was the television camera which for some time has been carried about the grounds of Alexandra palace, in what is considered England's first practical broadcasting of television.

The interested group which watched the golf play on an 8x10-inch screen was amazed by the exhibition, and was highly amused when Archie Compston, the king's golf coach, became stymied. His look of dismay was clearly seen and his exclamation of annoyance plainly heard.

The British Broadcasting Company is testing two rival systems, both the result of a decade of experimenting by their inventors. One has been developed by the electrical genius, Guglielmo Marconi, the other by a Scottish inventor, John Logie Baird.

The Marconi camera is a compact unit of electrical wires, vacuum tubes, and photo sensitive plates, from which just a powerful lens—the eye of the camera.

No Film to Renew

A heavy cable carrying numerous wires from the camera to the amplifying apparatus and the studio transmitter completes the movable equipment. There is no film to adjust or renew, there is no cranking. A switch starts the camera, which operates continuously while the current is applied.

The scene that the camera picks up goes directly to the transmitting apparatus and a unique aerial arrange-ment, for broadcasting. The accom-panying sound is picked up by a sepa-rate sound machine, and broadcast at the same time on a different wave length, over a different group of aerial wires, but synchronized with the television camera so that both sound and scene can be received as one.

A remarkable feature about this camera is that it has a memory. Shut off the current, as the camera views a particular scene, can the lens, and any time later the camera will pick up the scene that was "stopped," although the actual view does not appear before it.

Distance is Limited

Actual broadcasting of a televises scene is limited, however, to a distance of between 25 and 30 miles. A 300-foot mast above a corner tower of Alean-dra palace carries two sets of vertical aerials strung around it in octagonal arrangement. From one set go the visual impulses. From the other go the sound waves.

A disadvantage of the Marconi trans-mitter is that the scene it picks up are momentary and cannot be reproduced. To offset this, the British Broadcasting Company installed the unique film-

bers by club members.

After more than a decade of experimenting, this television camera is in operation in London, undergoing a series of rigid tests, at a lavish outlay of money. The cameraman is shown transmitting a view as he stands in front of Alexandra Palace. Towering at the right is the 300-foot mast which carries two sets of vertical aerials, one for visual impulses and one for sound waves.

television apparatus invented by Baird. Baird's camera throws the televised scene on a moving film, much like the ordinary movie camera. But that film is developed almost as fast as the scene is televised, and actual broad-casting of the original view takes place within 30 seconds later.

Film Can Be Stored

After the original broadcast, the wet film can be wound up, dried, and stored for future re-broadcasting. The sound track can be applied alongside the visual film, so that it looks like any movie film.

The equipment with which Baird made his first promising tests cost only \$1.90 and now is in the Science Museum at Kensington.

Used in the original apparatus were old bicycle parts, cocoa tins, 16 cheap bull's-eye lenses, a circle of cardboard, and a selenium cell which was a pier-ced cardboard disk, mounted on a spindle to act as a receiver.

Both the Baird and Marconi systems

have improved the means by which the scenes are broadcast, so that no special heavy lighting equipment or makeup is needed for "shooting" a view.

Secret of this important develop-ment lies in the greatly improved pho-to-electric cells that both systems use. Baird says that his type of photo-elec-tric cell, which transforms the vari-ations of light to electric impulses, and back again, has 3000 times the sensitiv-ity of previous cells.

Amazingly Sensitive

So sensitive is the photo-electric ap-paratus in the Marconi camera that it can pick up the second hand of a watch as clearly as telegraph wires, on long shots, and can operate even in dull weather.

It's almost infinitely weak signals have to be amplified more than a million times before being sent through the radio transmitter.

The British Broadcasting System is spending an appropriation of a mil-lion pounds to test the systems in an effort to discover the most efficient means of television broadcasting.

Its officials seem assured that they are on the threshold of actual trans-mission of scenes in a practical way.

him down, but she refused.

Her divorce from Spencer was quiet-ly handled by State Senator Aubrey Weaver, of Front Royal, Va., who is a friend of her family. The testimony was given through depositions which are still on file at the old colonial court house.

It seems, according to the deposi-tions, that her first husband deserted her five years before she sought a di-vorce, and when she sued, she asked no alimony. She testified she had "a very small income" of between \$3,000 and \$4,000 from her grandmother's estate.

She was 31 years old then, which makes her 40 now. Her marriage to Spencer took place on November 8, 1916, in Baltimore and for five years she lived a happy wife's life, moving from place to place.

"We were in California in 1920 when Win set out for Florida," she testified. "He refused to take me along. Finally through letters I was able to show him he was acting stupid. We began to live together again in Washington in 1921. But it was very unhappy. He drank perfectly terribly. He was home very little. He threw bottles at me and hair brushes."

Wallis's mother, Mrs. Charles Allen, of Washington (she had her third hus-band then), testified in the same man-ner.

'Friendly Parting'

Among the divorce papers is a little note from Spencer written from a battleship on June 15, 1924. It said:

"I have come to the definite con-clusion that I can never live with you again. During the past two years since I have been away from you I have been happier than ever before." He ended with, "Please be kind enough not to annoy me with any more let-ters. Yours, Win."

But Senator Weaver saw none of the bitterness in their final dealings.

"The case was not contested," he says. "It was just a matter of incom-patibility. Spencer was a handsome man of medium height with black hair. He was just as popular as Wallis. He came down to Front Royal when we took the last depositions, and we all sat around and talked very cor-dially. Wallis and he shook hands

SEES NEW CAR

DETROIT—"I was just fortunate enough to get an advanced look at the new 1937 Dodge," says Eugene B. Meek. "If everybody 'falls' like I did, millions will want to change to Dodge this year. Dodge certainly gets my vote for giving America such a big, economical car at such a low price."

The British Broadcasting System is spending an appropriation of a mil-lion pounds to test the systems in an effort to discover the most efficient means of television broadcasting.

Its officials seem assured that they are on the threshold of actual trans-mission of scenes in a practical way.

A Little Drinking Lost

CHICAGO—(P)—Club life and the art of drinking have faded from the average American's knowledge be-cause he is in too much of a hurry to get somewhere and do something, says Albert Auwaerter, new manager of the exclusive Chicago club.

"Men join clubs to escape the rou-tine of home," Auwaerter declares, "to mingle with their social peers and enjoy service. The younger generation, however, does not even know how to order a drink."

"The idea most young men have of a party is to gulp down half a dozen cocktails and grab the hors d'oeuvres from the buffet. After the sixth cock-tail they don't care what they eat."

In flight, a housefly beats its wings 330 times a second.

and parted friends."
